

Windham Academy Public Charter School is announcing the launch of its first annual Capital Fundraising Campaign. The money raised will go towards the acquisition of the building they currently lease and a state of the art campus. WAPCS is looking for their first donor to kick off the campaign. A public charter school is a school of choice that costs nothing for tuition and is run by a board of parents, teachers, and community members. WAPCS will focus on STEM Prep education incorporating reading and art to provide a well-rounded STREAM educational experience for its learners within a culture that incorporates the excitement of project-based learning, the satisfaction of subject mastery in areas of literacy, numeracy and social studies, and lasting values through civic understanding and personal character. The school will open in September with grades K-3 and will add an additional grade each year. WAPCS is the only full day, free Kindergarten in Windham. Beyond raising money for the new facility, WAPCS is also seeking support for its academy and other academic programs. Funding will be used to provide high tech smart boards, a new playground and expand community partnerships for students. Anyone interested in making a contribution of any amount is encouraged to donate directly to the school at Windham Academy Public Charter School, PO Box 60, Windham, NH 03087 or www.windhamacademy.net.

Benefits

	<u>Host</u> <u>\$5,000</u>	<u>Gold</u> <u>\$2,500</u>	<u>Silver</u> <u>\$1,000</u>	<u>Bronze</u> <u>\$500</u>	<u>Contributor</u> <u>\$250</u>
