Board of Trustees Windham Academy  
1 Industrial Drive  
Windham, NH 03087

Dear Board of Trustees,

In light of recent events regarding the Board of Trustees, I would like to apply for one of the parent chairs on the Board of Trustees. I strongly believe in the vision of Windham Academy as a STEM Prep charter school that incorporates project based learning.

I have two children who attend Windham Academy and love the school. Before Windham Academy they attended public schools in Hudson, NH and were overwhelmed with the number of students in their class and lack of classroom management.

I moved to the New England area in 2009 and started working for MIT Lincoln Laboratory while attending the University of Massachusetts Lowell on nights and weekends. After graduating in 2019 with a bachelor's degree in Mechanical Engineering Technology, I was promoted to Assistant Staff at MITLL where I am still employed as an Assembly, Integration, & Test Engineer. I am responsible for the successful completion of environmental testing of space based programs that enhance national security. I also own a rental property in Nashua, NH where I deal with occasional issues that arise.

I believe that my engineering experience with an emphasis on task completion, and my property management skills will make me a great fit for the parent chair on the Board of Trustees.

Thank you for the consideration.

Regards,

Timothy Hennighausen
